

IST POST EVENT

UPDATE

Thank you for confirming your preferred theme for the IST Post Event in Washington D.C. We're pleased to confirm this choice and invite you to join the Facebook group for your theme. This is the place you can begin to chat and plan your adventure with like-minded IST members to achieve your dream experience. Please note, we have combined some smaller themes in one group.

If you have already done some planning this is your chance to share progress with others, and for all it's an opportunity to discuss ideas and follow-on actions. If you are in a bigger group you may want to discuss forming sub-groups for the event.

These groups are a fantastic opportunity to develop friendships and support networks for the Jamboree and Post Event and we will be watching your progress and providing guidance where we can.

At the All Adults Weekend we will be giving you time to meet up in your groups to put the final touches to your plans.

Please remember:

- When using social media please ensure you follow The Scouts' child protection and social media guidelines and do not engage in one-to-one messaging with people under the age of 18.
- Please restrict discussion in these groups to Post Event planning, rather than general Jamboree discussions.

The exact timings for the Post Event and our Sunday afternoon finale are still being finalised and more information will be available in spring 2019. The Post event is exclusive to IST on Options A and D, and will be your opportunity to celebrate your achievements at the Jamboree and show others the fantastic time you have had exploring Washington D.C. All current information, timings and what's included can be found [here](#).
